FACTS

School Type: Private
Curriculum: BNCC (Brazil's National Common Curricular Base)
Number of Students Enrolled (High School): 1541
Graduating Students 2024: 549
High School Teachers: 93
Accreditation: Brazilian Ministry of Education
CEEB Code: 000004

School Calendar: 4(four) stages
Language: Portuguese
Bilingual Program: Agreement to International School (Elementary School to Middle School)
Scholarships: Merit Scholarship (Full and partial)
- *Numbers of scholarship are not published.*
Religion: None

OVERVIEW

COLÉGIO ARI DE SÁ CAVALCANTE is a private school located in Fortaleza, Ceará. It is named in honor of the teacher and journalist Ari de Sá Cavalcante, a remarkable and respected man in the Brazilian educational scenario. Since its establishment in 2001, our school has been recognized for its teaching quality at all grade levels (Kindergarten - High School). We have 6 campuses around the city, each campus has over one thousand students. Our students have had outstanding results on national standardized tests for admission to Brazilian universities and Scientific Olympiads, both nationally and internationally. Ari de Sá Cavalcante is also the model school for SAS, an education platform that provides didactic material, assessments and support for teaching and management to more than 1200 partner schools across the country.

MISSION

Our school is committed to foster competent and autonomous students, cognitively and morally, from the development of their intellectual, affective and motor potential and their awareness of duties and rights as citizens.

INSTITUTIONAL HIGHLIGHTS

Our school highly values exceptional academic success as well as other students' abilities. Advertising displays are published throughout the school when our students stand out on standardized tests or Scientific Olympiads.

Graduated students - around 98% - are admitted to universities in Brazil, as well as some international institutions. Ari de Sá has been in the news both local and nationally by placing students in top universities in Brazil and around the world. In the last 15 years, we have been in the top of the national ranking of schools with the best scores in ENEM - National High School Exam.

DID YOU KNOW?

Our libraries have the largest collection in the state, compared to other private schools, reaching the mark of 135,000 (one hundred and thirty-five thousand) books.

COLLEGE ACCEPTANCES

California Institute of Technology	Columbia University	Northwestern University
Dartmouth College	Duke University	Penn State University
Harvard University	Amherst College	Pomona College

USP	UESPI	UFDPA	UFLA	UFPR	UNICAMP	
FGV	UFAC	UFERSA	UFMA	UFRB	UNIRIO	

ADMISSIONS AND CLASSES

Every year we receive a large number of applications to our different classes. We select candidates through grade reports analysis, admission exam and an interview with the student and the family.

We have 3 types of classes in High School: Regular, Advanced and ITA/IME. The candidate chooses the class of interest at the time of registration, based on his academic preferences. Classes have different levels, interests and workloads.

CURRICULUM

- **AP and IB curriculum are not offered.**
- **BNCC (Brazil's National Common Core Curriculum)**
- **We do not provide oficial rankings.**

The curriculum of the New High School adopted by our school is composed of General Basic Development, in order to consolidate essential learning, diversifying part of the curriculum, which can be chosen by the student, according to their interest. Even though the school does not offer AP and IB, we do offer advanced National and International Olympiad classes. These classes are for selected students with high academic performance.

At school, the student will have a weekly Life Project class, during the regular shift. The development of the student's life project becomes mandatory, which consists of a planning made to reach the student's personal, professional and citizen dimensions.

REGULAR, ADVANCED AND ITA-IME	
Portuguese	Sociology
Art	Mathematics
P.E.	Physics
History	Chemistry
Geography	Biology
Philosophy	English

ITA/IME class has great emphasis on Mathematics, Physics and Chemistry, also we offer Calculus class for the 12th grade in the first 2 (two) weeks of the school year.

SCHOOL CALENDAR

School terms are considered as follows:

- 1st - January, February, March, April
- 2nd - May, June
- 3rd - August, September
- 4th - October, November

GRADING SYSTEM

A - Excellent	B - Above Average	C - Average	D - Below Average
8.5 - 10.0	7.1 - 8.4	7.0	0.0 - 6.9

NOTE I

Due to the high level of classes and tests required in the ITA/IME class, the grades of students enrolled in this class may decrease compared to the grades of students in other classes.

NOTE II

A student who, at the end of the 4 (four) stages, obtains an average greater than or equal to 7.0 (seven) and 75% attendance in classes is considered approved.

NOTE III

The student who, at the end of the 3 stages, has obtained an average greater than or equal to 7 in each subject, will be considered approved, in terms of academic performance, according to the following formula:

$$MA = \frac{ME1 + ME2 + ME3 + ME4 \times 2}{5}$$

ITA/IME CLASSES

The ITA/IME class is the most advanced and exclusive program at our school, with total focus on the demanding ITA and IME entrance exams. Students in this class follow an intensive, differentiated and highly specialized curriculum designed to meet the highest level of academic performance. Due to its exceptional nature, we do not issue partial or official grades throughout the 3rd year. Final assessments are only available at the end of the academic year, in December.

ADVANCED CLASSES

The school's Olympic classes are comprised of high-performing students and are specifically focused on preparing for traditional university entrance exams, primarily at the national level, with an emphasis on the most prestigious and competitive ones. Admission to these classes follows a competitive and rigorous process, which takes into account not only academic performance but also overall school achievement. The weekly schedule for these classes consists of 30 to 40 hours of lessons, each lasting 50 minutes. Additionally, students undergo an intensive program of tests and activities that adequately prepare them for the various academic challenges across the country.

CLASS GRADE DISTRIBUTION

PARAMETERS	REGULAR	ADVANCED	ITA/IME
AVERAGE	7.3	7.8	7.1

DID YOU KNOW?

The Brazilian Aeronautical Institute of Technology (Instituto Tecnológico de Aeronáutica - ITA) is considered the best Engineering School in the country. It has a very selective entrance exam, which is held once a year. The exam demands a high level of knowledge on Mathematics, Physics and Chemistry.

EXTRACURRICULAR ACTIVITIES

Extracurricular activities are available to all students. However, most of them are paid activities. They normally take place on campus, but are optional and do not interfere with mandatory courses.

Among these activities, we offer:

Talent Festival
Sports clubs
Cultural and Technological Fairs
Ari Mundi (a simulation of UN event)
Debate cycle
Career Fair
English Plays
Student clubs
Interclass games
Composition and Drawing contest
Vovô ari (social project to collect donations for elderly community)

As a result of the covid-19 pandemic, some procedures and activities described here may have been adapted or suspended according to safety protocols provided by State Government Decrees and in the guidelines of the World Health Organization (WHO).
