History

The Brazilian Military Schools System, established in 1889, saw its first school in Rio de Janeiro. Built in 1957, Colégio Militar de Salvador graduated its first senior class in 1963. While prioritizing military dependents, the school also admits non-military dependents through a competitive annual entrance exam focusing on Mathematics and Portuguese. The school aims to provide a well-rounded education to its students, shaping them into future leaders. Numerous alumni have achieved leadership roles in Brazilian Armed Forces, government, and private sectors both domestically and internationally.

2026 High School Profile

Curriculum

CMS follows the Brazilian Secondary Education Core Curriculum (BNCC) and additional guidelines by the Board of Preparatory and Assistance Education of the Army. Students learn math subjects up to precalculus, trigonometry, complex numbers, combinatorics, statistics and probability. The school does not offer calculus nor any AP, IB or Honors Classes. Therefore, all students follow the same curriculum and must satisfy the same requirements.

Core Curriculum

- **Art:** Study the history of Brazilian and global art and its manifestation across the decades, discuss the performing arts critically, including theater, music, dance, and painting;
- **Biology:** Explore cellular biology, genetics, evolution, ecology, epidemics and biotechnology, through scientific inquiry and laboratory investigation;
- **Chemistry:** Explore general, organic, and inorganic chemistry via experimentation and investigation;
- **English:** Develop comprehensive language skills, emphasizing both literary and non-literary text comprehension, sentence construction, and dialogue;
- **Geography:** Explore Earth's physical structure, human geography, and economic development, alongside Brazilian geography and its principal theorists;
- **History:** Trace political, social, and economic processes throughout world, Brazilian, and regional history.
- **Math:** Develop logical and problem-solving skills through algebra, geometry, trigonometry, and statistics and precalculus concepts;
- **Military Instruction (IM):** Training for military ceremonies and lectures about opportunities in the military field such as entrance exams to military academies;
- **Philosophy:** Study the history of philosophy through critical reasoning, ethics, and political theory;
- **Physical Education:** Study physical fitness and a variety of sports with a focus on health and team consciousness;
- **Physics:** Apply mathematical and experimental analysis to mechanics, thermodynamics, and electromagnetism;
- **Portuguese:** Examine Brazilian literature, writing, and history, with an emphasis on critically reading and interpreting a diverse range of texts;
- **Sociology:** Analyze social structures and power through classical, contemporary, and Brazilian sociological perspectives on culture and social division;
- **Writing:** Study argumentative essay writing through textual structure, coherence, and analysis of social issues.

Colégio Militar de Salvador (CMS)
